

**JUNE 17**

Short Courses

Extracellular Vesicles

Short Courses

Internet of Diagnostic Things

Short Courses

Short Courses

Internet of Diagnostic Things

**JUNE 18-19**

3D Cellular Models

Preclinical Strategies, Models & Tools in Oncology

Chemical Biology and Target Validation

CNS Targets and Translational Strategies

Optimizing Drug Metabolism & Pharmacokinetics

Introductory Immunology for Cancer and Autoimmune Drug Discovery

Immuno-Oncology Biomarkers 1: Predictive Biomarkers and Companion Diagnostics

Clinical and Translational Biomarkers

Preclinical Strategies, Models & Tools in Oncology

Immuno-Oncology Biomarkers 1: Predictive Biomarkers and Companion Diagnostics

Clinical Innovation for Combination Immunotherapy

Introductory Immunology for Cancer and Autoimmune Drug Discovery

Digital Health: Pharmaceutical Executive Summit

**JUNE 19-20**

Short Courses

iPS Cells for Disease Modeling and Drug Discovery

Patient-Derived Tumor Organoids

Target Identification & Phenotypic Screening

Blood-Brain Barrier

Predicting Drug Toxicity

Small Molecules for Immuno-Oncology Therapeutics

Cancer Immunotherapy Models

Applying 3D Models

Practical Introduction to PKPD Modeling in Drug Discovery & Dev.

Short Courses

Immuno-Oncology Biomarkers 2: Immune Profiling and Immune Monitoring

Digital Biomarkers: Biosensors, Wearables, and mHealth

Short Courses

Patient-Derived Tumor Organoids

Small Molecules for Immuno-Oncology Therapeutics

Cancer Immunotherapy Models

Immuno-Oncology Biomarkers 2: Immune Profiling and Immune Monitoring

Short Courses

Digital Biomarkers: Biosensors, Wearables, and mHealth
